

# Conference on Future Maritime Education

## – What is the need of the future?

**DATE** October 6, 2022 – 9.30am-16.00pm. Light breakfast will be served from 9.30am

**VENUE** Amaliegade 33, 1256 Copenhagen K, 1st Floor

**REGISTRATION** [danishshippingacademy.nemtilmeld.dk/473/](https://danishshippingacademy.nemtilmeld.dk/473/)

**Note:** registration is necessary for the workshops

**The best educations are developed in strong collaboration between the industry and the academies. Therefore, we need your input on what the maritime educations must contain in the future.**

Join us when we – in an extension of Danish Maritime Days – discuss the future competencies within shipping (both on land and at sea). The conference offers keynote speakers, workshops and hotspots for you to participate in which are relevant to you.

**The workshops** focus on an in-depth discussion on the matters of the education's competencies of the future – especially within digitization and green skills. Registration is necessary for each workshop, which is included in the registration link above.

**The hotspots** offer an opportunity for an informal talk/presentation of the relevant topics listed. The hotspots will be held in both Danish and English.

## Program

**10.00 WELCOME BY ALLAN DAN JENSEN** – Chairman of The Maritime Education Committee (English)

**10.10 KEYNOTE: GREEN TRANSITION IN EDUCATION**

1. **Iben Vilster Rehling** and **Olivia Mathilda Bodo Hansen** present the Danish Ministry of Higher Education and Science's Framework of understanding for green transition in education. The maritime industry is facing a green transition, and we need to educate people with green skills to execute it. But what is green transition in education? (English)
2. **Pernille Trojahn Kristiansen** and **Thomas Bertelsen** from the Ministry of Higher Education and Science will give us an overview of future trends in maritime education. What competencies will be important to succeed with the green transition and how do we educate people for the future in the Maritime Industry? (English)
